Dear Sir

You remember when

⁴
~~you~~ spoke to you about going to see
that family suppose you let me
decide the question in this way
~~As~~ I expected to tell her that
after what has happened that
I would ^{not be able.} go see them again any
how for a long time, then if
she should wish me to continue
and she should ask me who told
me not to visit again I can truth-
fully say that it was my own
~~idea~~ idea and then nothing can
be said to blame you.
